

**Instructions:**

Test your regulatory knowledge! Review the story below and identify all of the hazardous materials mentioned.

E-mail your answers to: [Customerservice@BureauDG.com](mailto:Customerservice@BureauDG.com)

**Prize:**

1 winner will be selected. Submit the correct answers first and receive a \$25.00 Amazon gift card!

Thanks for playing and good luck! ☺

**Hazardous Materials we are Thankful for!**

As we near the Thanksgiving holiday, let us be thankful for the hazardous materials that make our holidays great! For many of us, this fun and festive holiday includes some version of the following scenarios – can you identify how many hazardous materials contribute to our Thanksgiving celebration below?

Lots of phone calls to organize this gathering – good thing I have unlimited calls and texts on my cell phone! For the first time, we're going to make a deep-fried turkey – just picked up a propane-fueled deep fryer and can't wait to try it out. Cooking for 10, the shopping list is pretty long, starting with a 14 or 15 pound turkey all the way down to a few cans of Reddi Wip!

This year I'm going to bring out the chafing dishes and attempt for once to have everything hot when served – always the challenge! – need to put Sterno cans on my shopping list. Also should pick up another butane barbeque lighter – will need that for the Sternos and the candles. I'm sure I'll make a mess of the oven also – will need a can of heavy duty oven cleaner!

Found a great recipe for eggnog that calls for spiced rum and pure vanilla extract – with all those flames around, I need to be sure to keep the fire extinguisher handily accessible!

Looking forward to a great day with the family – and also looking forward to curling up in bed with my iPad after everyone has headed home – Happy Thanksgiving!
